Since 1998, we have planted the seeds of our dreams on the land of Zambia – a hardware store that has weathered storms and grown from a small team to hundreds of dedicated members. Our footprint now spans the globe, with a product line covering 12 major categories and nearly **50000+** SKUs. In this journey, the birth of the **KaiKai®** tool brand shines brightly. It symbolizes the unwavering entrepreneurial spirit of the African continent. With over **8000+** product options, a robust supply chain, and professional service, **KaiKai®** has become a trusted partner for small and medium-sized sellers worldwide.

As our services have gained popularity and our brand has grown louder, our market share has continued to expand. We have established independent **inventory distribution centers** in South Africa, Zambia, the Democratic Republic of Congo, and other regions. To ensure efficient delivery, we have deployed over **50+** large trucks in southern Africa.

We provide personalized one-on-one **store consultation** and **customized services**, ranging from **logistics advice, product selection, packaging design, booth customization, billboard customization, to store operations, ERP services, financial accounting**, and **data analysis**. We are dedicated to serving our customers, ensuring that every step they take is solid and confident.

Our **procurement and production centers** in Mexico, South Africa, Zambia, Southeast Asia, and various provinces in China are established to find high-quality products tailored to local needs. In this process, we integrate the advantages of the global supply chain to provide our customers with **high-quality, diversified**, and **market-competitive** products.
